In conclusion, Trump is massively unfit for office. He is a danger to the American People with a loss of 212,000 lives and climbing, a danger to the US Constitution, the Country and our Allies. Finally, Trump is a danger to our National Security, a danger to the will of the People of the United States in the 2020 Election and to the World.

First you are my cousin, friend, family member, associate. I care about our country and I care about you. You sent this media clip from Trump's Campaign.

How do you feel about these actions of the White House though?

The White House is trying to stop people who have pre-existing conditions from having health care. This is in the courts right now.

The White House Administration has been trying to stop the affordable care act during Trump's entire time in office and defunded the WHO during a Pandemic.

He's talked about veterans as losers and suckers. How do you feel about that?

Trump doesn't speak in a way to bring our country together over race issues.

This administration just made this sideways attempt to destroy Social Security and Medicare.

How do you feel about these, not his words, but his actions?
